I like it. We need to think about a nationally consistent approach. I think in a lot of cases the MACT-required monitoring/recordkeeping is appropriate. Any feedback from Eric?

This is on the AEM Agenda (New Guidance and Policy that Affects Enforcement) – I think you should be added to the agenda and see if we can turn your memo (or some version of it) into a national approach for dealing with OIAI. I assume that was your intent (to get ahead of HQ on this) :)
